HOP BITTERS
ARE
THE PUREST AND BEST
MEDICINE EVER MADE,
THEY ARE COMPOUNDED FROM
Hops, Buchu, Mandrake and Dandelion

"The Oldest, Best, most Renowned, and Valuable Medicines in the World, and in addition contain all the best and most effective curative properties of all other bitters, being the greatest Liver Regulator, BLOOD PURIFIER and life and health restoring agent on earth."

They Give New Life and Vigor to the Aged and Infirm.

"To Clergymen, Lawyers, Literary Men, Ladies, and all those whose sedentary employments cause irregularities of the Blood, Stomach, Bowels, or Kidneys, or who require an Appetizer, Tonic, and mild Stimulant, these Bitters are invaluable, being highly curative, tonic, and stimulating, without being intoxicating."

"No matter what your feelings or symptoms are, or what the disease or ailment is, use Hop Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use the Bitters at once. It may save your life. Hundreds have been saved by so doing at a trifling cost."

Ask your Druggist or Physician.

"Do not suffer yourself or let your friends suffer, but use and urge them to use Hop Bitters."

"Remember, Hop Bitters is no vile, drugged drunken nostrum, but the purest and best Medicine ever made, and no person or family should be without it."

LITERATURE IN THE EXHIBITION.

The bulls, Pizarro, and the Cabinet crisis are things of the past; in the versatile Buenos Aireau public such events never survive a fortnight An embryonic attempt was made to get up a mammoth demonstration against the bulls, but a manifesto, graced with the most respectable signatures of Buenos Aires, stopped short the sparkling effervescence; it is not necessary to state that editors, guardians of cowed morals, raised the protest. There is no doubt about it, we want very much a committee of public morals also, composed of editors principally.

But public attention has now veered towards the Once, where the large acropolis-looking edifice of the Exhibition is being rapidly completed, where industry and literature will meet and shake hands under an English zinc roof and beneath the cap of liberty. Raw materials and liquors mainly constitute industry; poets and editors represent literature.

Argentines have an ideal for the present that hovers round a literary reputation, but, as happens with all ideals, delusion and illusions are always blended together. Who can forget Brander in this case? Argentines do not care much for industry, because they are imbued with too much literature, aside from a material dislike to anything like hard work or manual labor. All know that Argentines constitute a literate population.

The gaucho is a poet, so is the lawyer, the doctor and the general. Our public men prove it. There is Andrade, the greatest poet, in the Spanish language, of the day, the author of the Prometeo, Atlantida, and of the ode to Lavalle; he is at present composing a Secular ode to Industry; he is an editor. We won't mention A Mitre, G Merou, E Rivarola, also editors, Guido Spano, Navarro Viola, Mendez, and many poets so well-known to all who read praises of America, of the shining waters of the River Plate, or the wooing of the moon-beams. So much for poetry.

In prose, Argentines are on the high road towards producing something approaching Gybbon or Macaulay. General Bartolome Mitre promises the public a new historical work, whilst his opponent Dr Lopez still writes his 'Comprobaciones' of history; both these gentlemen would be ornaments to any European Academy. All know Sarmiento, who still continues to write about education; he is the greatest educationist of the day; he is now aged and reclines on the laurels of his Facundo; like several great men he has only written one great work, and contemporaries already greet him as the greatest Argentine of his age.

It would be tedious to mention literary men like Cane, Lopez, Bunge, Oliveira, and so many others. But, strange to say, all the above notabilities are more or less newspaper men: some of them have abandoned the editorial pen, whilst others still sit before the desk. This fact is a consoling one, upon which the Buenos Ayrean editor can recline, satisfied that if there are some queer members in the brotherhood, he is sure to rub against men of talent. Even those whose cradle was never rocked by the Muse, whose sleep was never broken by the bees of Hymettos, whose life perhaps bears the stamp of fatality, may generally lean on some redeeming point to hide mediocrity and slander. Brave endeavors to guarantee the public weal, to wield off attempts and parry strokes that wound the superficial coating of a delicately moral epidermis, constitute the 'cheval de bataille' of some in the eyes of the credulous public; meantime others have entered into another groove, imitating the light, French and sceptical school of Gautier, Villemot, Mendes, Veron and others so familiar to a Parisian public. But the most amusing editorial literature is that of the pseudo-moralizer, or ortho-moralizer, as far as individual precedents warrant the appellation, wherein one detects a tinge of the cheating Dervish or sleeping Fakir, of the rogue and of the saint.

The 'Juegos Florales' appeals to them all, and the Exhibition wants a press kiosk for the delectation of newspaper readers; visitors from Europe will wonder at the number and variety of journals and will form an accurate criterion of the diffused literature amongst the inhabitants. The literary concourse, rather the 'Juegos Florales,' promise to bring to the Exhibition an immense flood of poetry and eloquence; Brander has shrunk back already, and the laureates have the field clear. There is nothing like literature in South America; it beats anything of the kind in Europe, and pity it is that the whole affair is not in English, to convince our readers of the fact. Argentines will bring their powerful contingent to the front, with Chilians, Columbians, Paraguayans, Uruguayans, etc. We pity the jury, and wonder if they will ever survive the effects next month.

BRAZIL AND THE ARGENTINE REPUBLIC.

The readiness of our Imperial neighbour to assist at our great Continental Exhibition, and the liberality of the Government in assisting exhibitors, is one of the most interesting episodes of the big show. The circumstance possesses not only a local but a national interest. It proves the friendly feelings entertained by the Emperor and the Brazilians for this country, and the desire to evince this friendship in a practical manner. Brazil, under the guidance of its present wise and honest ruler, has acquired the envable reputation of being one of the most just and upright of nations. Its good faith is proverbial in Europe, so that when with such ready good-will she offers to take such an active part in our Industrial Tournament, we can entertain no doubt of the hearty expression of amity which such a spontaneous act indicates. Should we have the pleasure of seeing the Emperor himself in the new capital of the Argentine Republic, it would undoubtedly prove an opportunity, that all would gladly avail themselves of, to show that distinguished personage how much we respect him as a Monarch and as a man. To him we doubtless owe our present international harmony. He is the first ruler in Brazil that has thoroughly understood the value of the friendship of this Republic, and the importance of having for a neighbour a nation which, like Brazil, is making itself great and powerful, not by aggressions and by arms, but by the civilisation of Industry and Commerce.

It is not many years ago when a very strong feeling of dislike had risen up between the two nations. About the time of the mission of Tejedor, and for some time after, our political and social relations with the neighbouring Empire were, if not critical, at all events unfriendly. As long as our questions with Chile remained open and threatened a rupture with that country, a large number of people in this country tried to get up an alarm by throwing doubts on the loyalty of Brazil. We are proud to say that the *Standard* invariably combatted these unfounded attacks, and we ever expressed our confidence in the good faith and sincerity of the Government of Rio Janeyro. We never could perceive any serious indication of a desire on the part of Brazil to see the two Republics precipitated into a war, and much less of any intention of alliance with Chile. Had a war unfortunately been brought about, Dom Pedro II. would have remained strictly neutral, as would have been his duty, and duty in that wise Prince appears to be an instinct, not a calculation.

It is time that the silly antagonisms between Republicans and Monarchists, in a political sense, should cease. We have seen, we witness it still, that the principles of limited Monarchy have created a great and flourishing State, even when surrouaded by Republics. If Republicans insist on it we will change the wording of the last sentence and say

Can be used with COLD WATER. Sole agents MOORE and TUDOR. BEWARE OF IMITATIONS AND FALSIFICATION.

that a flourishing State has been created under a Monarchical Government has achieved, in fact, a much higher importance as a nation than either of the two Republics in S. America worthy of being called nations.

The only little speck in the horizon of Brazil and the Argentine Republic, and that speck is by no means as large as the sailor's proverbial cloud 'as large as a man's hand,' that might at some future day destroy or imperil the peace, harmony and friendship which ought to exist between the two nations, is that wretchedly-governed nest of political hornets, called the Republic of Uruguay. Of course it is natural that Brazil should covet Montevideo and the Banda Oriental, for many palpable reasons, as Russia covets a port on the Arabian sea, and as Austria covets the Port of Salonica. As long, however, as the Uruguayan Republic keeps up the semblance of nationality, Brazil will respect her independence. But if, as is most probable, the anarchy in that miserable but beautiful country becomes unbearable to its neighbours, something will have to be done, and we may then fear that the Argentine Republic and Brazil will become rivals in the probable distribution of the spoils.

COMMITTEE'S REPORT.

The Committee appointed to bring out a Schoolmaster for the Scotch Church are now happy to report that by the assistance of the Committee in England they have been able to secure the services of Mr A. Watson Hutton, Master of Arts of Edinburgh University. The following testimonials are sufficient to show that the Community is to be congratulated on the very high attainments of Mr Hutton. Besides these public documents the Committee have received private letters from the best educational authorities in Scotland, speaking in the highest terms of Mr Hutton's attainments, character, success and earnestness. He has been chosen out of nearly a hundred candidates, and there is every reason to think that a specially fortunate selection has been made.

In order to put the School on a thoroughly efficient basis, the Committee in England have also engaged Miss Budge, an experienced Lady Teacher holding the Government Certificate, to take charge of Elementary Work, Sewing &c. This was not in the original scheme, but the Head Master spoke so very strongly on the matter, and it was so clear that, if the salary could be raised, a Lady on whom the Master could depend would be of the greatest value, in reorganizing the School, that the Committee in England unanimously resolved to take the responsibility of appointing a Lady Teacher also.

In addition to these a Master will be engaged to teach Spanish, and if necessary all modern languages will be taken up.

The School Buildings are being almost entirely rebuilt at a cost of over £1000, and now consist of a large School Room on the ground floor and three Class Rooms on the upper storey. One of these is a large room, 30 feet by 20 feet, very suitable for the Lady Teacher.

The scale of Fees will be moderate.

A point upon which both the Head Master and the Committee are determined to insist, is that the highest moral tone shall pervade all branches of the School.

It is expected that the School will be opened about the 1st. of March.

It may be confidently stated that such an opportunity of combining first-class education at a moderate price, with a specially prepared and trained staff of Teachers, has never before been put within the reach of the English-speaking community.

The bond for the Head Master's salary is still open for signatures at the Hon. Secretary's office, Calle Maipu 149.

W. Anderson.
Chairman of Committee.

(Here follow the testimonials, but they are too long and numerous for our space.)

EDITOR'S TABLE

Nothing, perhaps, reads more ridiculous than the news from Cordoba that a special session of the Legislature is called for the purpose of granting leave to the Governor to come down to Buenos Aires to attend the Exhibition. Really, the force of rebublican nonsense could not go further; and if, in the Cordoba Chambers there is to be found a man of brains and common sense, he will stigmatize in proper terms this wretched attempt at democratic flunkeyism. Possibly, the next special session of the Cordobese Legislature will be called to allow H.E. to blow his nose. How men and institutions degenerate is but too painfully obvious in such measures as these. They wouldn't call a special session of the Legislature to give to the Humberto passengers landing this morning the waste and idle but fertile lands of Tulumba. Oh! no; That would never do, but to give H.E. leave to come down to the Plaza Once.

The news from Europe is interesting. We have no later London papers than the 14th, which we had a week ago.

The heat yesterday was terrific —96 Fahrt. in the shade—and everybody was sighing for the new moon (due the day after to-morrow) in the hope that it will bring some agua.'

'Patience's' letter about Camps was the great topic yesterday amongst estancieros, lawyers, merchants, editors, and especially dentists. A subscriber has promised us an answer, to knock Mr Patience from his monument, and make him smile at the grief he will come to at his (subscriber's) hands.

President Roca was near having a fire in his house on Sunday night. The mosquito net of one of the children's cots caught fire, but the President heard the alarm from his study just in time to rush in, snatch the child safe from the bed and extinguish the burning curtain, not without getting a few burns. We congratulate the Chief Magistrate on the accident going no further,

We had the pleasure yesterday of a visit from Mr Henry Carter, formerly bandmaster of the 18th Brigade of Royal Artillery in the British army, now in the same post on board the ironclad Admiral Brown. He kindly presented us with a copy of his new waltz for piano, 'The Admiral Brown', a Strauss-like composition which is pretty certain to become the rage in fashionable drawing rooms, and we strongly recommend it to our lady readers as a 'novedad' for Carnival. It is on sale at Rodriguez's 138 Calle Florida.

Up in Santa Fe they have just had what may be termed a decent celebration, namely the inauguration of a bridge over the Salado. It is certainly about time, and this bridge will prove of immense service to the colonists and estancieros. The bridge connects the Gran Chaco with the Department of Santa Fe. May we not accept as of happy augury the construction of this bridge which facilitates communication with that mystic land the Chaco. As for the Salado, it is one of the most remarkable rivers in the Republic. In the good old days of Dr Esteven Rams, we were to have that river made navigable, but thousands of ounces were sunk in the enterprise which never amounted to anything; let us hope now that such matters are on the mend with us.

The 'phylloxera' is playing such frightful havoc in France that that country is now a large importer of wines! See our Supplement.

The new National Theatre in Calle Florida will open to-morrow. Madame Pezzana Gualtieri will declaim the National Hymn in Italian, and then the tragedy of Medea will be given. The President of the Republic will be present.

The latest news from Chubut is that they have discovered near there a grotto in which lie seven human skeletons of nearly twice the size of the present inhabitants of Patagonia. This will revive the old humbug in Europe about the aboriginal Patagonians being giants.

Our good friend Hermann the Wizard had a narrow escape lately in N. York. A fellow in the audience to whom he had given a pistol loaded with five bullets, to fire at him, changed the weapon for a revolver of his own and was about to let fly at poor H., when the people near him seized him just in the nick of time to prevent murder.

We snip the following interesting paragraph from an exchange :— The first who won the Victoria Cross.—Mr John Sims, one of the first and youngest recipients of the Victoria Cross, died on the 9th inst at the early age of 46. Mr Sims, who served in the 34th Regiment during the Crimea War, had the distinguished honour when only 20 years of age of having the decoration pinned on his breast by the Queen at the public ceremonial which took place in Hyde Park shortly after the close of the campaign. The episode which led to the bestowal of the mark of value was painted by Mr Louis W. Desanges for the Victoria Cross Gallery, and is thus described in the official catalogue—'No 44. Private John J Sims, V C, 34th Regiment. For having on the 18th of June, 1855, after the regiment had retired into the trenches from the assault on the Redan, gone out into the open ground, under a heavy fire in broad daylight, and brought in wounded soldiers outside the trenches.'

Vigorous measures are being adopted by the Manager of the Southern Railway to prevent the possibility of another accident like that at Gandara. Several changes amongst the traffic officials are mooted.

The Rev. James Smith will preach on Sunday next at the Cabaña, Canuelas district, at noon. There will be morning service at the Scotch Church in town, but no evening service on Sunday School. There is a letter at the Scotch Church for Mrs Wallace.

We have late papers from Panama, but there is not much in them. The following may interest our R.N. friends in these waters :—

"H.B.M.s. ship Thetis came up the bay yesterday from Taboga, and will await the arrival here of the ironclad frigate Triumph, which is due here about the 15th. Admiral Stirling, now in command of the Pacific squadron, will go home, and Admiral Lyons will arrive by Royal Mail steamer on the 24th to take his place. Admiral Stirling and staff will leave for England on the 6th of February."

The usual police edict for Carnival was out yesterday. No stones, comfits, cabbage heads, turnips, high eggs or any other missiles, except single flowers, are allowed to be thrown; no buckets of water, no rubber squirts, nothing but 'pomitos', and not even these if they exceed eight inches in length. (An eight-inch 'pomo' is, however, rather a formidable affair). These rules apply to *inside* the houses as well as in the street, and owners will be fined if they allow the usual horses play with water in their patios and at their street doors. We devoutly hope so, but will nevertheless, don our worst suit and hat during the three days' nuisance.

Biekherts Beer Grotto at the Exhibition was inaugurated on Tuesday by the private friends of the eminent brewer and the Exhibition officials. As the day was fearfully hot, the consumption of 'choppes' was very large. A hot day, nothing to pay, and a beer fountain in full play under one's nose provoke thirst of the most unassuageable kind.

The first note of congratulation received by Dr Wilde, the new Minister of Worship, was from Dr. Aneiros, Archbishop of B. Aires.

Private letters from Montevideo say that small-pox has become epidemic down there and is spreading in a most alarming way. The doctors dont admit, however, that it has assumed an epidemic form.

An 'alcalde' named Vera has just disappeared from his official residence on the Colorado, with $30000 m/c which he had stolen from an industrious 'vecino'. The fellow's previous exploits include stealing 200 head of cattle and selling them, a murder, and goodness knows what more. It puzzles us to conceive why the authorities do not enquire more closely into the antecedents of these fellows before appointing them.

About lunch hour yesterday an alarm of fire spread through town, and the Bomberos and their inadequate paraphernalia were seen crawling up to Calle Garantias, where Messrs. Durand & Chas' timber sheds were blazing away. The accident occurred through some melted zinc setting fire to the timber. Every stick in the yard was soon blazing, and the dense smoke was visible from all points of the city. Again was the old, very old story. *No water.* After a long delay the hydrant was turned on, and about 4 p.m. the flames were mastered. Several of the Bomberos had a narrow escape, as the front part of the wooden building blazed up suddenly while they were on the roof; they all escaped by a ricketty ladder. Several firemen and policemen were scorched. The place was not insured, and every thing was burned. Messrs Durand & Chas are the contractors for the Exhibition building. More of its good luck!

A Rio colleague gives the following :—"We are glad to inform those who take an interest in the support of that most deserving British charity the British Benevolent Fund, that the employees of one of our leading English Houses, appreciating its usefulness and recognizing the necessity that all British residents, whether employers or employed, should rally to assist and maintain it, voluntarily got up a subscription among themselves which has added 85$ to the funds of the institution. Such an act does the highest credit to the good feeling and generosity of the young gentlemen in question."

The Exhibition Committee are in a fix to get a musical jury together. This beats our comprehension, as we laboured under the impression that all the men and half the boys in the country were both poets and musicians. Wonders will never cease. The brokers assert that there is 'demasiada musica' going on in the country.

The $2 notes which have been issued by the Lacroze Tramway Co. are very convenient and very nicely got up. Some of our colleagues having expressed alarm lest these innocent vouchers might bring about a financial crisis (ye gods!) in the country, the Lord Mayor has consulted the Minister of the Interior about allowing their circulation. Messrs Lacroze, we should say, have a perfect right to issue these vouchers if the public chose to accept them. It would be better if they had been made less like Provincial Bank notes. This is the hitch.

One would think this country was a monarchy in enfeebled Europe, so Conservative are we in some of our customs. All the proposals to change the route of the Corso and give the population something new have fallen through, and we are to have the same jog-trot, old horse—from Plaza Lorea, along stuffy Calles Victoria and Peru, to the Retiro and back.

SQUATTER'S RIGHTS.

To the Editor of the *Standard*.
February 14th,

Dear Sir,

Flattered as I feel by your very complimentary address in yesterday's 'Editor's Table,' I cannot help thinking that at the rate you esteem my talents, I shall soon find myself in Lafontaine's jolly cobbler's shoes, who having suddenly become rich, found that this new state of things led to unutterable misery and ceased singing, eating, drinking, sleeping and every other 'ing.' At the same time I am very much obliged to you for affording me thus the opportunity of explaining any point of general interest to your subscribers, and in that sense I beg you will freely command my humble professional services whenever the occasion may arise.

Mr. Editor, I know you are fond of a joke, but I should be playing a practical one on you were I to write a letter of four columns on 'Squatter's Rights' from Rivadavia's time to the present day, and, as brevity is said to be the soul of wit, I will act up to the proverb for once, and let you and your readers off cheap. Your question is brief—'What is the maximum of area allowed to a squatter?' My answer is brief. It 'was' eight thousand hectares (or say three leagues.)

Yours sincerely and obliged,
B. Bertie Marriott,
Solicitor,
San Martin 33 (altos.)

P;S. Buyers of squatter's rights have been 'sold' before now: and it is therefore advisable for your subscribers to send up all particulars to their legal advisers before entering into such very slippery transactions.

ON 'CHANGE.

Feb. 15th

Patacones	25.02½
Cedulas A	99⅞
Cédulas E	83½
National Bank Shares..	126½

Affairs on Change continue very dull, and very little animation is remarked in any stock or paper. There is nothing whispered in the political atmosphere, and nothing is talked of except the great heat. The gold market presents the usual fluctuating features in prices, varying from par to 5 cents above for cash, but transactions in general are effected at 25.02½. The market is rapidly relapsing into the state of nominal par value. Business must be very dull to judge from the very scanty demand for shares, and the saladeros draw little, in spite of the anticipations of an active farina at this moment, entertained at the end of last month. On 'Change some comments were passed on the news that the Mint is coining at the rate of 5,000 Argentinos per day, which augurs a pretty prosperous state in the National Treasury; in the months of December and January lots of bullion must have come out from Europe to keep up the present activity in the Casa de Moneda. No mention is made of silver coinage, although ore has been purchased in the interior since some time.

Cedulas of Series A look upwards again and sellers ask for par rates, buyers are only willing to pay 99⅛, which is a very small difference in relation with the small sales on the black board. As the Bank has started a branch in Belgrano, a branch in Flores is being anticipated by many; branches in the suburbs do not mean much as far as extended operations, but the fact involves a provincial stand instead of a National one. The Bank in order to get a wider range of operations must establish succursales in towns like Mercedes, Chascomus, or San Nicolas de los Arroyos. Operations in Series E do not represent much, and the scrip is neglected on Change for the moment; the rates of emission at 80 o/o are close on the heels of present prices, but there are no probabilities of the Series falling to that level. Nevertheless, Series E is weak, while the Cedulas A are becoming firmer every day. The operations as usual continue very limited, and little interest is shown in the stock.

The feeling in the National Bank Share market is most undecided. Although prices have weakened, the reluctance with which the stock drops shows a firmness not to be disregarded. The weakening prices, nevertheless, point to the fact that there is not so much 'descubierto' as the bulls are willing to believe. Rates for cash were quoted at 126½; all during this month the market has presented a remarkable feature in the paucity of operations for cash, in fact, nearly none are effected; to-day only 100 shares were sold for cash. Operations for the end of the month were larger than usual, and the weak opening prices rose very steadily to 127, where they stopped and the market closed at the figure. There is a remarkable drop of 1 o/o for the end of next month, a drop that was not so suddenly expected, although sales yesterday for the date in question were difficult at 124. The operations during official hours exceeded 4,500 shares, 4,000 of which were sold for end of month. The attention of many speculators in the stock is concentrated on the meeting of shareholders at the Bank.

The sales at the ring were as follows :—
Cedulas—
For Feb. 28th A 5,000 99⅞
Nat. Bank Shares—
For cash 100 shares 126½
For Feb. 28th 4,020 shares 126¾–127⅛–¼–127
For March 31st 400 shares 123
Sales, 4,520.

Conflagrations are on the increase in the River Plate. Only the other day we reported the fire on board the Ptolemy; yesterday the boiler on board a small steamer exploded alongside the German steamer Argentina; last night a conflagration took place in the Calle Pozos, burning an almacen, cocheria, and private house; to-day the attention of the inhabitants was drawn by great columns of smoke rising in the North-western part of the city; fire had broken out in the Calle Garantias near Piedad. These successive fires must be a natural sequence to the great heat of the weather and the increase of insurance companies in the city.

Mr Antonino Cambaceres, it is generally said, will be the new President of the department left by Dr Wilde, when assuming the portfolio of Worship. Our old friend, Mr Pascual Costa, has been unanimously elected Secretary of the City Improvements Committee. Both gentlemen are the right men in the right place. The Vice-President of the Board was named yesterday.

Although Apollinaris water is no longer to be had in the market, we hear that there is plenty of Rhenser Water, from the celebrated spring in the Rhine; the medical properties of the water are well known, and the stock in the market is as large as that in Boppard. Many German, fashionable brokers breakfast on this water and a hard egg.

Although this city cannot complain of drought, owing to the very heavy rains during the season, there are many districts in the South where rain is badly wanted. The rain that fell three weeks ago killed a good many sheep.

The large shipments of wheat from Rosario to this port are drawing attention. There seems to be a break in wheat at last, and we may look forward to cheaper wheat and flour.

The want of water in Flores and on the fine road to the village of the plain is felt more than ever; people who travel in the open tramways are enveloped in dust from the Once to the Almacen de Genoa. Where are Mr Schwartz's 'pozos surgentes'?

The fast Limport and Holt s.s. Galileo leaves to-morrow for Southampton direct; she takes a full cargo. There are over 500 tons of linseed in her: this is one of the largest shipments of linseed during the year.

2000 Ensenada potro salted hides of 33 lbs. were sold to-day at 17½.

3000 Concordia salted potro hides sold to-day at 18 rls on board: weight 34 lbs.

2,000 Nat. Bonds were sold at afternours at 86; some 8,000 more sold at 87. The stock shows an improvement.

100 Primitive Gas Shares were sold to-day at 1,900 m/c.

The Bank discounted to day $5,000,000; the applications were very numerous. No gold was discounted.

Messrs Scharffenorth & Sattler have chartered the Italian barque Alba to load salted hides in Paysandu at 32s 6d and 5 per cent, for Channel and orders.

About 8,000 ar. of wool arrived in the Once this morning; nearly all sold at prices firmer than yesterday's. In spite of the bad advices from Europe the activity in our Plazas is not in the least abated. On the 28th of this month the great London wool auction comes off; over 300,000 bales will be offered.

Messrs Johnson Galbsso & Co. have chartered the following vessels:—

Danish barque Louisa to load salted hides in Tuyu for orders; rates reserved.

Norw. barque Emmanuel to load salted hides in Uruguay; rates reserved.

The fine property advertised for sale at the Cinco Esquinas was not sold; no bid.

Two square leagues of land in Entre Rios, near Gualeguay, have been sold at the rate of 14,000 pats per league.

A fraction of camp, something over half a league, in Las Flores, has been sold for 300,000 m/c; an Irish sheepfarmer is reported to be the buyer.

The Ital. barque Jaccomo B has been chartered to load hides and salted hides in port for Antwerp at 26s and 5 o/o; and 16s and 5 o/o.

The Municipality of B. Aires has begged from the Western Railway the loan of 50,000 paving stones.

At afterhours there was some business in National Bank Shares; about 1,000 shares were sold at rising prices, the market closing at 127¼ for end of month.

Some exchange done to-day at the usual rates 49⅜.

An evening colleague reports a disagreeable affair up the river between the Captains of the Estrella and Union. It appears that the Union had put on full steam, in order to distance the Estrella still ahead of her, but that in doing so the Captain of the former did not comply with navigation rules. The Estrella was compelled to veer from the right to the left, in order to avoid a collision that might have entailed loss of life and steamer. The Captain of the Union very coolly notified the Estrella that if she did not get out of the way, he would simply run her down, as he had full steam up. The affair is one of competition and within the jurisdiction of the Marine. But as there are always two sides to every question, we must wait and listen to the statements of both Captains. Competition between steamers on the rivers is a very dangerous thing, and the circumstance will make many passengers uneasy.

The National transport Villarino will leave this port for the South on the 22nd instant.

Mr Wm. E Cock has been appointed engineer of the Zarate Arsenal by the National Government.

The fall in Argentine Treasury Bills was anticipated in the market. Telegrams were dispatched to London as soon as the decree appeared, and holders of the stock in this market awaited news of the effect of same on the London Exchange. Rates in London have fallen to 103 o/o, a very slight premium on a stock that pays such enormous interest.

A large sale of novillos is reported in Entre Rios from Mr Unzue's estancia El Potrero, at 13 pats per animal.

The Provincial Government is directing its attention to the manifold wants of the camp; in a decree, published to-day, the Government offers to pay one-half or one-third of the expenses, in supplying the camp towns with aguas corrientes. The decree is an excellent one and will bear the very best results.

Mr J H Temperley has been named Juez de Paz of Brandzen.

Farmers in the South must be prepared to pay the new drainage tax, as the Provincial Government is taking steps in the matter.

It may interest our readers to know that the total debt of the Banda Oriental amounts to the very large amount of 58,000,000 pats in round figures; herein are included both the home and foreign debts. The debt is very large for a Republic like the Uruguay, and not far short of that of the Argentine Republic.

In Montevideo 4,000 ar. of fine mestiza wool from the Santa Rosa establishment have been sold at reserved rates.

The following late news about the Antwerp produce market, from Messrs Bunge & Co. of that city, under date Jan. 12th, 1882, is important:—

Wool—

The course of the market through out the past year shows a marked contrast with that of the preceding one. Whilst during the latter speculation played a prominent part, bringing about a general and strong rise of prices which being however unjustified by the position of the trade was soon followed by an equally strong reaction, we find that during the year 1881 prices were subject to but small fluctuations, though during its larger part tending downwards. The market generally presented the spectacle of an almost uninterrupted contest between owners on the one side trying to keep up prices so as to preserve themselves from loss on their imports, and buyers on the other unwilling and to a certain extent also unable to prove themselves compliant in this respect, through prices of manufactured goods not warranting them to be so.

The general stagnancy of business which characterized the close of the year 1880 continued during the first months of the year under review. Public sales held in January brought about a decline of about 10 centimes, the value of a Buenos Aires average primera 30 per cent reodiment, being then reduced from 1.75 fr. at which price the year had opened, to about 1.65 fr. without thereby provoking a better demand. Manufacturers continued to limit their purchases to strictest necessity and it being then the epoch of large receipts, this policy resulted in a further reduction of values, so that at the opening of the second series of our public sales in the month of April, prices had already declined another 5 centimes. This made the value of our standard description to be 1.60 fr., which price was about maintained at these sales and during the ensuing three months, leaving aside such temporary fluctuations as the rise of about 5 centimes which occurred in July but was soon lost again. The public sales held in August showed prices at their lowest, Buenos Aires average primera 30 per cent being worth from 1.50 fr. to 1.55 fr., since already during the following months we see a rise of about 5 centimes accompanied by brisk and general business. The market continued in this state until the opening of our last public auction which took place in November and fully confirmed the rise which had previously taken place. No further change occurred since the coming off of these auctions and we open the new year, with low prices, moderate stocks and trade in an apparently satisfactory condition, and hopeful views are generally entertained as regards the future.

Since the issuing of our last report, business has been quite important, notwithstanding the holidays which intervened. Owners are willing sellers, and the new clip having found favour with buyers, pretty extensive transactions have taken place at maintained rates. Comparing the new product with that of the preceding season, we find an amelioration both as regards quality and rendiment. The new wool is generally fine, of good nature, dry and but little infested with burrs.

Our next public auctions will open on the 24th inst, provided that up to the said date 12,000 bales will have become available: should this not be the case, the opening is to be deferred for another week.

At the public sales, which opened yesterday in Havre, 3,538 bales have thus far been offered, and 1,555 bales sold at a decline of about 10 centimes on prices paid previously by private contract. The attendance appears to be moderate, and but little animation prevails.

Public sales in London will probably open on the 21st of next month.

Our statistical position is now the following:

This article continues to grow less important on our market with every ensuing year. Imports during 1881 again show a diminution as compared with those of the preceding year of about 6,000 bales or 50 per cent. Prices have not participated in the decline which took place for wool during the first six months of the year, which lies behind us, but have remained stationary all through, and to-day occupy about the same level as they did at the beginning of the year 1881. Sales since our last reference only comprise 32 bales. Stock, 162 bales.

Hides—

Very little can be said as regards the course of prices of this articles, during the past year, the most striking feature being an almost entire absence of any fluctuations of moment. We began the year with Buenos Aires ox 25/32 kos. at fr. 80, and Uruguay ox of the same weight at fr. 76, and now close at fr. 84 and fr. 79, the highest point touched in August being fr. 84 and fr. 79, and the lowest in February fr. 80 and fr. 75. The position of our Continental tannery continues to be represented as being unsatisfactory, since the prices obtainable for leather leave no margin compared with those of the raw material. Thus, notwithstanding our entering upon the new year with reduced stocks everywhere, general opinion inclines to look upon a further reduction of values as being highly desirable, and the probability is that such will effectively soon take place, since we shall have to contend with large and early arrivals. News from South American reports cattle there to be in such excellent condition, better than has been known for many years past, that total killings during this season are likely to exceed those of the past one to a considerable extent, and slaughterings already amounting to 92,000 head against none at the same time last year.

Since we last reported, a regular business has been transacted, which was only temporarily interrupted by the holidays. Light ox, which are comparatively abundant, sell at a decline of fr. 1 to fr. 2, whilst for heavy ox old prices continue to be paid, on account of their scarcity. No floating sales have been made on our market since our last issue. In England the following cargo has been sold to arrive: Broodertrouw, from Rio Grande 5,983 ox hides 67½ lbs. at 6¾d for heavy and 6d for light.

Tallow—

We have again to report a sensible diminution of imports during the year 1881 as compared with those of the preceding year, say 3,400 pipes against 9,300 pipes. This decrease may, it is true be partially explained through the deficit in killing in South America, but its principal cause must be ascribed to the fact that manufacturers are growing more and more accustomed to look for their supplies at the places of production instead of, as in former years, purchasing on our market.

Railway Station on the Land
Very low Price
Half cash, half on time with two years to pay.

For what you pay for rent you can acquire this land the sale of which will be effected by us.

In Our House,
51—San Martin—51
On Friday, February 17th
At 3 p.m.

We shall sell on the above conditions this magnificent camp which formed part of the Estancia 'La Colorada', situated in the partido of Las Flores. The Southern Railway, runs through the land and there is a station on the property.

As the camp is so well know for the excellent quality of its pastures, any praise would only be superfluous. The following lagunas are in the camp:—Del Sauce, del Medio, del Quemado, de la Naranja and others of less importance.

The land has been fractioned into 14 small lots and will be sold in one or more lots at option of buyers.

Lot Nro. 14 comprises the estancia house 'La Colorada', containing 6 rooms with papered walls, wooden floors and a surrounded by two corridors. There is a galpon 10 yards by 30 and another building of three rooms suitable for a mayordomo.

A fine quinta fenced and ditched. Besides there are 4 or 5 puestos in this fraction with zinc roofs. The superficial arrea is 1167 squares and 18,941 square varas with some fine lagunas.

The other fractions are of regular formation and have been made of small size to suit the wants of agriculturists as the soil is excellent and adopted for tillage. The building on these lots will be included in the sale.

For plans and other informotion apply at San Martin 51.

On Monday February 27th
at 12 o'clock

We shall sell the stock of above breeding establishment so justly famous for the many victories achieved on the turf by the excellent animals bred there.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid informing this stud farm, as he selected and imported into this country, aninals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered,and this is due only to Mr Reid's determination to retire from business.

Zeuone, San Jeane, Venus, Toscas, Pichon, etc, have given on our race courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of 'Las Barrancas'.

N.B. There will be a special train and carriages at the station to take out and bring back all parties interested.

Una area de campo compuesta de dos leguas cuadradas de abundantes pastos, y cuyos linderos son los señores Emilio J Perez, Juan P Cauré, Puerto de la canal y J A Lousteau.

Uno de los mejores elogios que podemos hacer de estos campos es que el Gobierno de la Provincia vendio el 7 de Febrero en este mismo partido a razon de 600,000 m|c legua, y en el de Juarez por mas de un millon de pesos legua hace apenas un mes.

El dueño de este campo al ponerlo la base de 170,000 m|c legua, ha tenido en vista atraer el mayor numero de los pequeños capitalistas para que ellos puedan comprar areas menores, relativamente a las que hoy se estan vendiendo y que ellos determinan en el acto del remate cual es el valor de esta fraccion.

Este campo esta perfectamente situado y dista unicamente 14 leguas de Juarez.

Vendere los campos arriba espresados, la mejor recomendacion que de ellos puedo hacer es copiar los datos sacados oficialmente del Departamento Topografico de Cordoba que es el siguiente:—

Detalles de las suertes num. 4 serie A Departamento Rio Seco, y los num. 7 serie B y num. 8 serie A Departamento de Tulumba.

La primera esta situada en la Pedania de la Candelaria; como a 20 leguas al Sud Este de la Villa Maria, linda al Norte y Este con terrenos fiscales y al Oeste con la suerte N. 3. Este campo es bueno, para todas clases de haciendas y sus pastos buenos y abundantes, tiene montes y algunas islotas de Chañares, las aguas a 2 varas en su mayor hondura. La segunda esta situada como 2 leguas al Nor Este del puesto de Fierro, linda al Norte con la suerte num. 4 espresada mas arriba.

Este campo es inmejorable, sus pastos superiores para toda clase de hacienda, tiene monte y el agua esta a dos varas; y la tercera esta situada en la Pedania de Mercedes, linda al Sud con la suerte num. 7 y a los otros rumbos con terrenos fiscales.

Este campo es de buenos pastos para toda clase de hacienda, las aguas alcanzan a 2 varas segun consta de los espedientes que existen en el archivo de este Departamento a que en caso necesario me refiero, en fe de lo cual firmo la presente en Cordoba a 27 de Enero de 1882.

Por autorizacion:

A REVUL,
Secretario.

Despues de este informe; esta demas todo lo que se puede decir; solo hare recordar que estos campos son muy superiores a los que vendi por orden del Gobierno el 1 de Diciembre, y que alcanzaron hasta 3400 pfts. la legua, Ojo pues, y aprovechar la ocasion.

LATEST FROM CHILE.

Valparaiso, Jan. 27th.

H. E. the President arrived here on Wednesday evening, his first visit to this city since his inauguration, and received a very enthusiastic reception. He was escorted from the railway station to the Intendencia by a large concourse of persons, and the streets, all along the route, were *en fete*. After arriving at the Intendencia H E presented himself at one of the balconies of the building, and was most enthusiastically cheered. A gentleman, deputed for the occasion, welcomed him in the name of Valparaiso, and the President replied briefly, but in his customary felicitous manner. We embrace this opportunity to tender respectfully to H E the President of the Republic the best wishes and cordial salutations of the community we represent, and in which we ourselves sincerely and heartily join.

The *Epoca* publishes the following Lima telegram of the 21st;—'Montero has formed a ministry as follows:—Juan B Arbaiza, Foreign Affairs; Jesus Elias, government Mariano Alvarez, Justice; Colonel Francisco Garcia Leon, War; Manuel Maria Rivas, Finance.'

The Iquique correspondent of the *Mercurio* says that the Cuban, Pacheco Oespedes, has been made prisoner by his own followers. The same writer says that the operations for raising the *Covadonga* are proceeding satisfactorily, and that it is expected that, in a month or so, she will be afloat again.

Eighteen hundred men, under Colonels Latorre and Suarez, were attacked by Pierolists, under Canseco, at Ayacucho, and defeated. Suarez was killed. It is reported that Canseco had started for Arequipa, to proclaim Canevaro president of Peru.

The government has adopted the very wise plan of appointing a commission, consisting of Messrs. W. Lloyd, A Pissis, A Lastarria and W H Hughes, to report upon the Talcahuano dock. We may now expect to learn something definite and reliable respecting a work which has given rise to no end of controversy and contradictory statements.

A telegram from Iquique, dated the 24th, says that the Union nitrate works has suspended operations. Labourers had struck, and had commenced rioting owing to a general reduction of wages in all nitrate establishments.

The ironclad Almirante Cochrane, Captain Latorre, arrived on Tuesday afternoon, after a lengthened period of active service. The gallant ship has been visited by large number of persons.

It has been decided to remove the national library to the old Hall of Congress. The library contains about 60,000 volumes, and it is proposed to expend 30,000 dollars in fitting up its new quarters.

THE JUDICIAL CRISIS.

ESCRIBANOS.

(*Continued*.)

To the Editor of the *Standard*.

Sir,

It would be ill-breeding not to thank you for the far too flattering remarks in the 'Editor's Table' concerning our letters, which appeared in your issues of January 20th and 29th, and February 2d and 9th, the latter on 'Law Expenses.' There would seem, Sir, to be no good reason why any individual connected with the law should be ashamed or afraid of making these things known. And, for our part, we can only say that if any of our hints or suggestions should lead to any of our fellow-countrymen becoming more reconciled to the existing order of judicial things in a country in which they are temporarily or definitively settled; if they should be the means of preventing misery and ruin from being carried into the humblest camp cottage, among the helpless and ignorant, the widow and orphans; if they should only tend to restore but an infinitesimal particle of that divinity which is not usually, we believe, said to hedge the heads of legal practitioners; if they should prove our desire to act fairly towards the generous people in whose land we live, by touching lightly on its legal shortcomings, and with the sole intention of laying before our own countrymen the remedies which these very same shortcomings point to, then we shall feel that we have attained our end by aiming at a higher object than £ s. d., and we shall rejoice in having conquered our very natural reluctance to contribute to the *Standard's* Balthasar's spread with our homely mess of oatsporridge.

PUBLIC REGISTRY NOTARIES.

To-day we crave your permission to say a few words on 'escribanos' or notaries, about whom there reigns, we submit, some slight confusion not only in the minds of foreigners but in those of Argentines too. A seeming strange anomaly, but one which can scarcely be without precedent in your 20 years' statistical career. Now, in order to be an 'escribano' or notary, it is first necessary that the applicant who contemplates entering the notarial profession should comply with the requisites of age, citizenship, respectability, acquaintance with the law and its practice. Once these conditions have been fulfilled by the candidate and he has passed his final notarial examination, he receives a diploma which accredits him as a received notary. But, it must be borne in mind that this diploma of itself is not enough to make a public registry notary—a public officer—of him and to enable him to certify and attest the deeds and instruments which come before him.

Something more is required; and, in order that such high legal authority may vest in him before the law he must first be appointed to and have the charge of a public notarial office called here a 'registro' or registry.

THREE CLASSES OF NOTARIES

It will thus be easily perceived that there are in reality three different classes of 'escribanos' or notaries, viz—1 The notary who has no registry and no protocol in which to consign the original deeds and who beyond having taken out a diploma is in much the same position, if not worse, than an English lieutenant who has not got a ship. 2—The notary who is 'adscrito' or attached in due form to some public notarial registry, and 3—the notary public proper in the true sense of the word, who has been appointed to a public notarial registry by the Government.

No. 1 cannot certify or attest any doed or document whatever.

No. 2 can only do so in some notarial public registry and under the direct responsibility of the titular public registry notary to whom he has been attached or appointed to assist.

No. 3 is the only one who is directly invested by the law with sufficient authority to certify and attest all such instruments and deeds as may come before him.

CIVIL, COMMERCIAL, NAVAL &c. NOTARIES.

No. 3 may again be subdivided into two sections, (*a*) civil public registry notaries who register civil matters, and (*b*) commercial public registry notaries who register mercantile matters. Both *a* and *b* can have notaries of class No. 1 attached to their registries who then become 'adscritos' of the class No. 2, above described. In the civil registries the notary draws up, certifies and attests all civil deeds, contracts, documents and instruments such as Wills, Powers etc. The commercial registries are for the execution of mercantile contracts, the noting and protesting of Promissory Notes and Bills of Exchange, and generally for all such deeds and instruments as are of a purely mercantile character. However, this last subdivision of A and B does not hold good in the country where every civil registry certifies and attests both civil and commercial contracts and instruments. In the city of Buenos Aires there are besides a few naval notaries whose business is the speciality of naval contracts etc. And, we must also mention that there is yet another kind of notary who tends to make confusion worse confounded—viz; the notary public who draws up powers and attests and certifies surety bonds, bails, recognizances etc before the Correctional Criminal Courts and in those which belong to Federal jurisdiction. As the reader will have observed, these last notaries play a double part, performing the duties of actuaries and registrars in the Correctional, Criminal, Federal or Sectional Courts, while, on the other hand and at the same time, discharging the duties of a public registry notary. In a word they act as 'Escribanos Secretarios' Judges assistants in Court, and outside it they act as public registry notaries (Escribanos publicos de registro).

In our next we shall just take a discreet peep at both the Notary's and Secretario's fees and charges.

Meanwhile,

Yours truly and obliged

B. Bertie Marriott,
Solicitor
San Martin 33, (altos)

THE FRENCH VINTAGE.

The returns which have just been published as to the French vintage last year bring into striking relief the mischief which has been done by the phylloxera. The total acreage of vineyards had fallen last year to 5,200,000 acres, this being a decrease of 250,000 acres from 1880, and of 870,000 acres from 1874, and as the ravages of the insect extended to 2,500,000 acres of the vineyards still under cultivation, it is evident that in another twelves month the returns will be still more discouraging unless some unlooked for remedy is discovered in the meantime. Three or four departments seem to have suffered more severely last year than ever before, for in the Charente the acreage planted in vines fell from 280,000 acres in 1880 to 42,000, while the department of the Charente Inferieure, which had 370,000 acres of vineyard in 1875, and 352,000 in 1880, had only 310,000 last year, the department of the Herault declining during the same period from 480,000 and 265,000 acres to 215,000 acres. Even in the departments where, notwithstanding the appearance of the phylloxera, there has been a marked falling off in the yield, and in the Lot-et-Garonne, with its 175,000 acres of vineyard the yield has fallen from 1,238,000 hectolitres (22½ gallons each) to 637,000 in 1880, and 357,000 last year. The vintage was very abundant last year in all the departments which have hitherto escaped the ravages of the phylloxera, such as the Pyrenees-Orientales, the Aude, the Cher, the Loire-et cher, the Marne, and the Meurthe-et-Moselle, and this is why the total yield for last year was 768,119,500 gallons, as compared to 579,845,000 last year.

These figures, however, compare very unfavourably with the 1,600,000 gallons of 1874, and the 1,900,000 gallons of 1875. The effect of all this upon the imports and exports has been very marked. From 1871 to 1875 the exports of wine from France averaged 80,000,000 gallons, but last year they were only 47,450,000, while concurrently with this the imports have risen from 3,830,000 gallons in 1871, to 15,200,00 gallons in 1875, and to about 180,000,000 gallons last year. The making of wine from raisins has also become a recognised trade, and the latest statistical publication of the French Ministry of Finance gives the following receipt:—'Crush about 70lb of Smyrna or Cyprus raisins in 450 gallons of hot water, and after a fermentation of twelve days to three weeks, the result will be a very palatable white wine possessing from seven to nine degrees of alcoholic strength.' It is estimated that about 50,000,000 gallons of 'wine' were made in this way last year, and that as much more was obtained by a second and third press of the grapes after they had been crushed once, and by an addition of water and sugar.

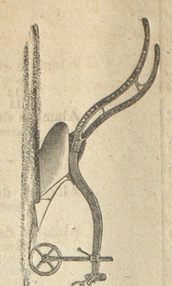
HOWARD'S CELEBRATED PLOUGHS

Howard's

Small Ridging Plough

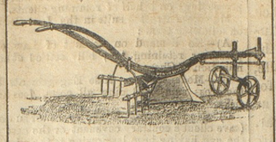


A small useful iron plough, fitted with a double mould board or earthing up body, and much used by market and vegetable growers.

Weight ¾ cwt.

Howard's

Water-Furrow Plough



This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is that the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1¼ cwt.

Howard's

Potato Ploughs.

With a pair of horses, this implement will raise three to four acres of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually,

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism. Gout. Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. "To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy,s Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c, at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*

Carlow Lay College AND ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

Banco Hipotecario

Esta abierto al servicio publico todos los dias de trabajo desde las diez de la mañana hasta las cuatro de la tarde.

Presta sobre hipoteca con reembolso a largos plazos.

Por el valor del prestamo da cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f. 2000 ni el prestamo menos de $f. 500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una annualidad que dure todo el termino del contrato. La annualidad se compone del interes del capital prestado, del fondo destinado a amortizarlo, y de la comision del Banco. La annualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las annualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las rentas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Julio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco Hipotecario recibe sus Cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una Cedula de $f. 50 que es el minimum de las que emite el Establecimiento.
